VS-3102 1-ch video server

Cijena po Jedinici (komad): 1 .887,50 kn; (ukljuèen PDV)

VS3102 MPEG-4 1-CH Video Server

VIVOTEK's IP surveillance technology offers more future-proof and cost-effective solutions to help you migrating from analog to digital in a smooth way. Connecting to a network or modem, our digital compression technology ensures the lowest bandwidth requirement without sacrificing image quality. VIVOTEK's VS3102 video servers are implemented by a DSP, which provides the most professional embedded system ideal for transmitting multimedia streams over existing IP network. VS3102, based on MPEG4 video and in-house designed audio compression technology, are total solutions for integrators, SOHO, or home users at the best ratio of performance over cost. For today's application, not seeing is believing but hearing makes more sense. By integrating with a powerful multi-channel PC recorder software, you can step back and take a look [Specialist](#) at what just happened.

MPEG-4 Video Compression Built-in Web Server Supports PSTN via External Modem Intelligent Motion Detection Pre- and Post- Alarm Snapshots Digital I/O for Sensor and Alarm Adjustable Network Bandwidth
